PROFESSIONAL SUMMARY

Finance professional with experience in FP&A, Financial modeling, M&A, Investment strategy, and Strategic financial planning. Managed financial performance across 50+ client engagements and identified ~$700K in potential annual cost savings. Skilled in analyzing revenue drivers, operating costs, AI automation, profitability, and financial KPIs to support data-driven business decisions.

PROFESSIONAL EXPERIENCE

Acquisition Analyst Intern | Leaf Group at NY, New York, United States of America ***June 2026 – August 2026***

- Built DCF and LBO models to evaluate target valuations, entry assumptions, leverage, projected returns, and transaction feasibility across prospective acquisitions, supporting investment decisions on potential $10M–$50M+ enterprise-value businesses**.**
- Screened and evaluated 100+ lower-middle-market acquisition targets, focusing on businesses generating approximately $1M–$5M of EBITDA and analyzing financial performance, industry dynamics, and strategic fit with the firm's buy-side M&A mandate.
- Executed 100+ personalized outreach campaigns to founders and business owners, generating acquisition opportunities and supporting the deal process through initial screening, due diligence, investment analysis, and transaction execution.

Corporate Development Analyst Intern | Think Gas Distribution Pvt. Ltd, Noida, India ***May 2024 – October 2024***

- Analyzed P&L performance, margin analysis, and KPI tracking across $56M+ in contract execution projects over a six-month engagement, identifying pricing inefficiencies and driving unit economics and cost optimization improvements.
- Structured M&A and corporate restructuring workstreams by structuring the financial and contractual terms of a $28M transaction, drafting the Novation Deed to reallocate liabilities, manage counterparty risk, and preserve deal value during obligation transfer.
- Utilized SQL to extract, analyze, and consolidate financial data and business objectives across multiple projects, supporting P&L analysis, KPI tracking, variance analysis, and financial reporting.
- Developed MIS-based financial reporting frameworks and supported business performance reviews, analyzing P&L trends, financial variances, and operating KPIs to support strategic decision-making.

Founder and CEO | YOU. Prathit Sareen, New Delhi, India ***October 2020 – September 2023***

- Built an end-to-end project-level budgeting, cash flow forecasting, and financial control system to manage working capital and mitigate cost risk across 50+ client engagements, supporting financial planning and cost control.
- Identified margin erosion risk through variance analysis and budgeted-vs-actual cost modeling across concurrent projects, sustaining consistent profitability and gross margin discipline across 50+ projects.
- Analyzed product-level unit economics, pricing strategies, and profitability across client projects to identify higher-margin offerings and optimize revenue generation, contributing to $100K in cumulative revenue through client relationship management.
- Performed vendor financial assessments and cost-benefit analysis on pricing, creditworthiness, and delivery risk before contract execution, reducing procurement costs and improving working capital efficiency.

ADDITIONAL PROFESSIONAL EXPERIENCE

Due Diligence Analyst | Simon School Venture Fund, Rochester, New York ***October 2025 – May 2026***

- Conducted financial and commercial due diligence on 10+ early-stage startups, evaluating business models, financial performance, market potential, and valuation metrics to support investment decisions involving $500K opportunities.

Financial Consultant | Simon Vision Consulting, Rochester, New York ***October 2025 – December 2025***

- Developed financial models and ROI analyses to evaluate operational efficiency and workforce costs, identifying ~$700K in potential annual savings through a feasibility study of an in-house workforce strategy.
